

Of Interest to Dressmakers!

(AMATEUR AND PROFESSIONAL)

And to All Others Who Use Patterns!

The success or failure of home dressmaking depends largely upon the pattern used. Therefore if you are looking for success, and not failure, it behooves you to use the best pattern on the market, one far above the ordinary, one which is characterized by accuracy in drafting, simplicity of construction and elegance of design—that pattern is the Standard. If you have used Standard Patterns, we know you will use them again, and always. If you have as yet not known the satisfaction attending the use of a perfect pattern, we advise you to delay no longer. It is never too late to mend, but now is the time for the unsuccessful dressmaker to become encouraged again and start on the right track. We know what we are promising, when we assure you that Standard Patterns are supreme in every respect over any pattern made, whether higher or lower in price. We know Standard Patterns are as perfect as modern skill in drafting and designing can make them. We know that no other pattern can give such general satisfaction. We know that no other pattern will give such grace and style. We know that no other pattern is so simple of construction and so readily comprehended, and we want you to know it, too. It's an investment guaranteeing success—that 10c or 15c which pays for a Standard Pattern.

PERRY & CAMP.

Telephone 9-4. 71 and 75 Main Street, Barre, Vt.

Wednesday, August 21

Is the day we are going to place on sale

Harry Wishart and Paul Scampini returned yesterday from Chelsea, where they constituted the battery in the Chelsea team in two games on Friday and Saturday. In the Saturday game Chelsea defeated Randolph 16 to 1. Scampini pitched a strong game, striking out 11 men and allowing but five hits. He also got three hits and Wishart wielded the club for four hits with a total of five bases.

A colt which Fred Slayton is training did a little bit of training on his own account this morning. The horse was at the trotting park and becoming frightened ran down South and North Main streets, until reaching the Tomasi block a collision with one of D. M. Miles' coal teams stopped him for an instant and tore the wheel from the wagon and caused the horse to swerve. From his course onto Dr. H. W. Neale's lawn, where he was captured. The horse was uninjured, but the wagon and harness were a total wreck.

Card of Thanks.

We wish to extend our heartfelt thanks to the friends who so kindly assisted us during the illness and death of Miss Louisa Bond and especially the singers and the givers of the many beautiful flowers.

Mrs. L. M. Webber and family.

Gleanings.

Champagne corks cost 10 cents apiece.

The population of the prairie provinces in Canada has increased in five years from 460,000 to about 1,000,000.

In Preston, England, the power generated by the burning of the city's waste suffices to operate the electric railways.

The Chinese city of Tsingtau has a model slaughter house. All animals are inspected, and twenty samples of the meat from each animal are examined microscopically before being placed on the market. All diseased meats and animals are cremated.

Labels Scarce in Straw Hats.

Hunting for a needle in a haystack is more pastime to searching in New York shops for a man's straw hat bearing the union made mark. A man who has done it is authority for the statement. He is an ardent sympathizer with the labor union, and it is a ruling principle with him to wear nothing but union made clothes. That is why he is wearing last spring's derby during the hot weather. Derbies with the union label are easy to find, but an examination in a downtown office of more than a hundred examples of head covering in straw from almost as many dealers failed to disclose one that bore the sign—New York Tribune.

Labor Union Bank.

The Co-operative Bank and Trust Company of Oklahoma City, promoted by the Farmers' union and the labor union of Oklahoma, was chartered at Guthrie recently with a capital stock of \$500,000 to do a general banking business.

"We expect that the institution will be largely patronized by the Farmers' union and the organized labor of the territories," said Cephas Miller, the treasurer.

"The institution will be a union labor bank. No stock will be sold except to members of unions, and special efforts will be made to interest and accommodate union men."

Soup.

Soup was first manufactured in Britain in 1524.

Overdose of Lead.

It was stated at an inquest on a peasant in a Serbian village that the man died from swallowing too many bullets, which he was accustomed to take, in common with all the peasants of that district, whenever he felt ill.

The Colorado Beetle.

The Colorado beetle, so called from its striped coloring, was first discovered by one Thomas Say, near the upper Missouri, in 1824. It gradually worked its way eastward through Nebraska, Iowa, Illinois, Ohio, etc., to the New England states, destroying the crops. In 1873 it reached New York and the Atlantic seaboard in 1874.

These are made of best gingham and madras in assorted colors.

Misses' Dresses made of plain blue gingham in sailor style, that were \$1.25, now at 63c.

Misses' Dresses with plaited skirts and tucked waists that were \$2.98 and 3.50, now at half price.

With these Dresses we are selling Misses' Coats at half price.

Odd lots from our Semi-Annual Sale are now on our bargain table.

A. P. ABBOTT & CO.

SARTORIAL NEWS.

Hints For the Late Summer Gown.
The Bell Skirt in Vogue Again.

Chiffon or voile combined with Limerick lace makes a charming summer frock and vies with the lingerie model in smartness. The handkerchief linen dresses, though, are the quintessence of elegance and are dainty almost any way they are made. With inset bands of valenciennes lace insertion they are

FOR WARM NIGHTS—5716.

exquisite, and one is won entirely over until a model with hand embroidery is seen. The French lingerie frocks that are adorned with insertion have their edgings omitted, the same rule holding good in the use of valenciennes or embroidery.

The old bell skirt is once more in vogue. It fits more closely over the hips and flares widely at the foot.

The knee long transparent net coats decorated with soutache of which we are hearing are charming fancies of the moment. Decorated all over with early wavy designs of braid, they are very familiar, but those trimmed with soutache in straight lines, perpendicular, diagonal and even horizontal are more original and very smart if well carried out.

The girl's nightgown that is made with half low neck and short sleeves is the one most in demand during the summer months. The cut shows a model of this description.

JUDIC CHOLLET.

Waves of Water.

Lake Superior is the largest body of fresh water on the globe.

The Nile overflows its banks from July to October. This is due to the rainfall of the Abyssinian highlands.

The Black sea contains less animal life than any other body of water. The lower depths are saturated with a poisonous gas which kills the fish.

Soothing.

"Are you hurt, John?"

"Yes, dear, I am afraid three or four of my ribs are broken."

"Well, don't feel bad; it doesn't show."—Houston Post.

SMITH & CUMINGS'

The Department Food Store

36 Per Cent Interest

Would look good to you for an investment. Did you ever think that is what you are getting here when you pay cash and save your rebate checks. Nearly every family uses at least twenty-five dollars per month in groceries, meat and bakery goods and most families fifty dollars.

On every \$25.00 in checks we allow you the value of one eighth barrel Snow Flake Flour or 75c. This on the basis of \$25.00 per month would be interest at the rate of 36 per cent.

You can't afford to run bills, better borrow the money and pay cash.

\$25.00 borrowed at six per cent would cost you \$1.50 a year. On the basis of \$25.00 per month your rebate checks would amount to \$9.00 per year, or a saving of \$7.50. On \$50.00 per month you would save \$15.00 per year, besides getting a better quality of goods for less money.

Pay cash and save your rebate checks. Every check has real value. No blanks.
